Where did this letter and finding come from? And who is setting the deadline for comments? I'm not aware of any council activities (i.e. scheduled committee or work group meetings or conference calls) that generated these documents, yet they've come under the "guise" of being prepared by the NRTC. If individuals are preparing these documents, they should be labeled as such and disseminated by the generating agency. Otherwise, all of us on the applicable committees/work groups need to be involved in preparing any drafts.

For now, RL's comment is this - Due NRTC process must be followed in preparing the attached letter and finding. In addition, we left the last meeting agreeing that USGS and PNNL should review all three studies and make recommendations. This letter circumvents that entire review process and is therefore premature.

Jamie

**Subject:** FW: draft by-laws revisions

Everyone -

Please see Tom O'Brien's revision to the By-Laws (attached). Any comments/changes need to be submitted by February 20.

Any questions, please call.

Thanks!  
Teri

**Subject:** draft by-laws revisions

Hello Again Teri,

Attached are revised by-laws based upon the group effort at the last trustee meeting and the notes that were transcribed on the work disc that I had. I took all of the edit redlines and strikeouts out of this version so that we could start fresh. Everything that was discussed is in this version however plus a Webster's Dictionary definition of consensus. I hope this comes through ok as I'm having trouble converting some word perfect files from discs to microsoft word. Please send this out to all of the trustees and request comments and edits by February 20th so we can get another draft

(See attached file: 02~05by-laws2.doc)
